### ONLY ONE INFECTED COW IN THIRTY-TWO

Thirty-two head of dairy stock were submitted to the intradermal test by Dr. Case, assistant veterinarian, on this island in the month of November, only one of which reacted. The one condemned animal was taken from the dairy of H. B. Brown, who had bought it from the ranch of F. M. Swanzy, Koolauloa. "This ranch and the Kaneohe ranch," says Dr. Case in his report, "are two places where little testing has been done, principally because they have held their drives at times when we were busy testing at other points on the island. There are undoubtedly some tuberculous animals on each of these two ranches, and we expect to make a complete test upon their next drives."

## Over-Night FEDERAL Wireless To the Advertiser

Walter F. Dillingham, head of the all-Hawaiian polo team, which is entered in the tournament in Coronado and San Mateo county, in February, arrived on the steamer Korea today. The polo ponies belonging to Dillingham and the Baldwin brothers arrived at this port on the steamer Lurline several days ago, and Mr. Dillingham was pleased to learn of their fine condition.

Health conditions in the Philippines as a result of American sanitation methods are better than ever before, according to the report of the insular bureau of health, made public today by the bureau of insular affairs of the war department. This state of affairs was achieved, the report declares, in spite of the threatening importation of cases from other countries of epidemics of cholera, plague and small-pox.

With the defense expecting to close its presentation of direct evidence next Thursday, the end of the trial of Union men charged with illegally transporting dynamite is in sight today. It was said the examination of remaining witnesses would be brief, the arguments of the attorneys, however, being expected to occupy two weeks.

Reports from practically every station on the Pacific Coast from Redondo to San Francisco, give no ground for hope that Aviator Horace Kearney and his passenger, Chester Lawrence, who left Long Beach on Saturday in an attempted flight to San Francisco are alive. Unconfirmed advice from Ventura are to the effect that another portion of the wreckage of Kearney's machine has been picked up by a passing vessel, forty miles from Ventura. Aviator Francis, of San Francisco, Kearney's chum, today expressed the hope that Kearney and Lawrence may have landed on an island but the outlook is anything but favorable.

"First aid is alright for our small duties, but nothing will cure us but votes for all." Thus sang twenty-five suffragettes as they started on their 140-mile walk to Albany, to deliver to Governor Sulzer, on his inauguration, a message for the cause of women suffrage. Clad in sweaters, shirt skirts and high boots, and headed by a woman beating a martial tattoo on a snare drum, the marchers left Van Cortland Park on the outskirts of the city shortly after nine o'clock. Sympathizers of both sexes, were on hand and cheered lustily when the leader of the band, Mrs. Rosalie Jones, "General Jones," as she is called by her fellow suffragettes, gave the order "Forward march."

From a cot in the hospital Walter Mumm, the well known French wine manufacturer and sportsman related to magistrate Bochard the details of the shooting of himself by Mrs. Mary Barnes, in the latter's home. All efforts by the authorities to locate either Mrs. Barnes or her servants failed here today. "I was fond of Mrs. Barnes," said Mumm. "After a night of gaiety I tried to tell her that our love could not last forever. She flew into a rage. It won't last forever, she cried, and then snatched up a little revolver and fired at me."

President-elect Wilson reached home today from his vacation in Bermuda and received the invitation which had been sent him and Mrs. Wilson to be the guests of President Taft at the White House. The invitation was declined on the ground that he was too busy with the New Jersey state legislature to take time for the visit.

President-elect Wilson returned today from his vacation trip to Bermuda. Not an announcement as to politics, or anything else, did the governor have to make on his arrival. "I am going to devote myself to New Jersey affairs," he said. The President-elect brought with him his annual message to the New Jersey legislature, which meets January 14. It embodies every plank in the Democratic State platform. As to appointments, Governor Wilson admits that while selections have been running through his head, he has not decided on any post of importance, and has not even chosen a private secretary.

Senate proceedings: The senate today adopted a plan designating Senators Gallinger and Brown, acting alternately and fortnightly, as presidents pro tempore. The Senator Clapp campaign fund investigating committee announced that William R. Hearst would probably be the first witness when the committee resumed its hearings next Tuesday.

It also began consideration of the Sheppard-Kenyon liquor bill, prohibiting interstate commerce into dry territory. The court of impeachment resumed the trial of Judge Archbald. House proceedings: The House today considered many miscellaneous bills. Representative DeForest introduced a joint resolution proposing a constitutional amendment to make the terms of congressmen four years. Representative Berger introduced resolutions providing that the government condemn and buy the New York, New Haven & Hartford railroad properties.

John T. Dare, who was chief legal adviser to King Kalakaua during that monarch's reign in Hawaii, and later, for a decade, acted as appraiser of the port of San Francisco, died last evening. He had been ill for a long time and the end came as a result of a complication of maladies. Mr. Dare was seventy years old. He is survived by his widow, Annette M. Dare.

## You Beer Drinkers

**Read THIS!**

"Beer acted upon by light soon takes up the very disagreeable so-called 'light taste,' and also a repulsive skunk-like odor.\*\*\* Beer so affected is offensive to the palate of most consumers.\*\*\* Beer should not be exposed to light, especially to direct sunlight, as it will thereby be detrimentally affected, the light having an influence upon the albuminoids in beer, causes the beer to become hazy.\*\*\*"

Extract from "The Beer Bottlers' Handy Book," by Philip Dreesbach, Bottling Expert and Instructor in the Wahl-Henius Institute of Fermentology.

The Brown Bottle is not a fad. Its use by Schlitz is based on scientific principles.

The first Schlitz was brewed in a hut, over sixty years ago. Now our agencies dot the earth. Our output exceeds a million barrels a year.

Why don't you make Schlitz your regular beer? It's pure beer.

and three daughters, Mrs. Theo. K. Romaine, of Oakland; Mrs. H. G. Corwin, of Los Angeles, and Mrs. Bernard Franklin, of this city.

Waverly Brown, the son of a millionaire banker, became dangerously ill on the voyage of the steamer Korea, on which he was a passenger from Honolulu to San Francisco, and at one time his life was despaired of. The attack followed an entertainment aboard the Korea, and for two days Brown was believed to be in the shadow of death. He had become one of the most popular young men on the ship and when illness confined him to his bed he did not want for careful nursing at the hands of a score of young ladies. He was taken to the Brown home at San Leandro, where he will stay until he has completely recovered.

Each person in the United States this year will have used about ninety pounds of sugar. The per capita consumption of this article has increased

### MEANING OF HALF MAST

Perhaps you have noticed that whenever a prominent person dies, especially if he is connected with the government, the flags on public buildings are hoisted only part of the way up. This is called "half-mast". Did you ever stop to think what connection there could be between a flag that was not properly hoisted and the death of a great man?

Ever since flags were used in war it has been the custom, to have the flag of the superior or conquering nation above that of the inferior or vanquished. When an army found itself hopelessly beaten it hauled its flag down far enough for the flag of the victors to be placed above it on the same pole. This was taken not only

of submission, but of respect. In those days, when a famous soldier died, flags were lowered out of respect to his memory. The custom long ago passed from purely military usage to public life of all kinds, the flag lying at half-mast being a sign that the dead man was worthy of universal respect. The space left above it is for the flag of the great conqueror, or of all—the angel of death.—Toronto Mail and Express.
